SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1	Product	identifier

Trade name	:	SCHWABEX PRIME RB2,15
Product code	:	Article/SKU: 86240203 UVP: 06531709 Specification: 102000012600 Authorization/Biozid-Zulassung No: AT- 0011384-0000
Unique Formula Identifier (UFI)	:	SHG0-X0E X-C009-VMSW

1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the Sub- stance/Mixture	: Insecticide	
Recommended restrictions on use	: Not applicable	

1.3 Details of the supplier of the safety data sheet

Company	:	2022 ES Deutschland GmbH Alfred-Nobel Straße 50 40789 Monheim am Rhein, Germany
Telephone	:	+49 2173 9935239

E-mail address of person	: pest-partner@envu.com
responsible for the SDS	

1.4 Emergency telephone number

Vergiftungsinformationszentrale der Gesundheit Österreich GmbH: +43 (0) 1 406 43 43 (24h)

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)							
Skin sensitisation, Category 1	H317: May cause an allergic skin reaction.						
Short-term (acute) aquatic hazard, Cate- gory 1	H400: Very toxic to aquatic life.						

according to Regulation (EC) No. 1907/2006, as amended by Commission Regulation (EU) 2020/878

SCHWABEX PRIME RB2,15

Versic 4.0	on	Revision Date: 05.06.2024	-	DS Number: 1202872-000	05	Date of last issue: 28.05.2024 Date of first issue: 13.04.2023		
Long-term (chronic) aquatic haza egory 1			ard, Cat-	H410: effects	Very toxic to aquatic life with long lasting			
2.2 La	2.2 Label elements

Hazardous components which must be listed on the label:

1,2-Benzisothiazol-3(2H)-one

Reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3:1)

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Toxicological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

SECTION 4: First aid measures

4.1 Description of first aid measures					
General advice	 In the case of accident or if you feel unwell, seek medical advice immediately. When symptoms persist or in all cases of doubt seek medical advice. 				
Protection of first-aiders	: First Aid responders should pay attention to self-protection, and use the recommended personal protective equipment when the potential for exposure exists (see section 8).				
If inhaled	: If inhaled, remove to fresh air. Get medical attention if symptoms occur.				
In case of skin contact	 In case of contact, immediately flush skin with soap and plenty of water. Remove contaminated clothing and shoes. Get medical attention. Wash clothing before reuse. Thoroughly clean shoes before reuse. 				
In case of eye contact	: Flush eyes with water as a precaution. Get medical attention if irritation develops and persists.				
If swallowed	: If swallowed, DO NOT induce vomiting. Get medical attention if symptoms occur. Rinse mouth thoroughly with water.				
4.2 Most important symptoms an	nd effects, both acute and delayed				
Symptoms	 If large amounts are ingested, the following symptoms may occur: Nausea Abdominal pain Dizziness 				
Risks	: May cause an allergic skin reaction.				
	This product contains a nicotinoid.				
4.3 Indication of any immediate r Treatment	 medical attention and special treatment needed Treat symptomatically. There is no specific antidote available. In case of ingestion gastric lavage should be considered in cases of significant ingestions only within the first 2 hours. However, the application of activated charcoal and sodium sulphate is always advisable. Monitor: respiratory and cardiac functions. 				

according to Regulation (EC) No. 1907/2006, as amended by Commission Regulation (EU) 2020/878

SCHWABEX PRIME RB2,15

Version	Revision Date:	SDS Number:	Date of last issue: 28.05.2024
4.0	05.06.2024	11202872-00005	Date of first issue: 13.04.2023

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing med	ia :	Water spray Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical
Unsuitable extinguishing media	:	High volume water jet
5.2 Special hazards arising fro	om the	e substance or mixture
Specific hazards during fire fighting	- :	Exposure to combustion products may be a hazard to health.
Hazardous combustion pro ucts	d- :	Carbon oxides Nitrogen oxides (NOx) Chlorine compounds
5.3 Advice for firefighters		
Special protective equipme for firefighters	nt :	In the event of fire, wear self-contained breathing apparatus. Use personal protective equipment.
Specific extinguishing methods	ו- :	Use extinguishing measures that are appropriate to local cir- cumstances and the surrounding environment. Use water spray to cool unopened containers. Remove undamaged containers from fire area if it is safe to do so. Evacuate area.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

reisonal precautions	•	Follow safe handling advice (see section 7) and personal pro- tective equipment recommendations (see section 8).
6.2 Environmental precautions		
Environmental precautions	:	Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.
C 2 Mothedo and motorial for as		

6.3 Methods and material for containment and cleaning up

Methods for cleaning up	:	Sweep up or vacuum up spillage and collect in suitable con-
		tainer for disposal.

6.4 Reference to other sections

See sections: 7, 8, 11, 12 and 13.

SECTION 7: Handling	and storage
---------------------	-------------

7.1 Precautions for safe handling

Technical measures :	See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section.
Local/Total ventilation :	Use only with adequate ventilation.
Advice on safe handling :	Do not get on skin or clothing. Avoid breathing dust, fume, gas, mist, vapours or spray. Do not swallow. Avoid contact with eyes. Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure as- sessment Take care to prevent spills, waste and minimize release to the environment.
Hygiene measures : 7.2 Conditions for safe storage, inc	If exposure to chemical is likely during typical use, provide eye flushing systems and safety showers close to the working place. When using do not eat, drink or smoke. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before re-use.

Requirements for storage areas and containers	:	Keep in properly labelled containers. Store in accordance with the particular national regulations.
Advice on common storage	:	Do not store with the following product types: Strong oxidizing agents
Storage class (TRGS 510)	:	11
7.3 Specific end use(s) Specific use(s)	:	Refer to the label and/or leaflet.

according to Regulation (EC) No. 1907/2006, as amended by Commission Regulation (EU) 2020/878

		weight (d.w.)

8.2 Exposure controls

Engineering measures

Ensure adequate ventilation, especially in confined areas. Minimize workplace exposure concentrations.

Personal protective equipment

Eye/face protection :	Wear the following personal protective equipment: Safety glasses
	Equipment should conform to ÖNORM EN 166

Hand protection

Material Break through time Glove thickness Directive Protective index	:	Nitrile rubber > 480 min > 0,4 mm Equipment should conform to ÖNORM EN 374 Class 6
Remarks	:	Choose gloves to protect hands against chemicals depending on the concentration and quantity of the hazardous sub- stance and specific to place of work. For special applications, we recommend clarifying the resistance to chemicals of the aforementioned protective gloves with the glove manufactur- er. Wash hands before breaks and at the end of workday. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local condi- tions under which the product is used, such as the danger of cuts, abrasion, and the contact time.
Skin and body protection	:	Select appropriate protective clothing based on chemical resistance data and an assessment of the local exposure potential. Skin contact must be avoided by using impervious protective clothing (gloves, aprons, boots, etc).
Respiratory protection	:	If adequate local exhaust ventilation is not available or expo- sure assessment demonstrates exposures outside the rec- ommended guidelines, use respiratory protection.

SECTION 10: Stability and reactivity

10.1 Reactivity

Not classified as a reactivity hazard.

10.2 Chemical stability

Stable under normal conditions.

10.3 Possibility of hazardous reactions

Hazardous reactions : Can react with strong oxidizing agents.

10.4 Conditions to avoid

Conditions to avoid : None known.

10.5 Incompatible materials

Materials to avoid : Oxidizing agents

10.6 Hazardous decomposition products

No hazardous decomposition products are known.

SECTION 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Information on likely routes of	:	Skin contact
exposure		Ingestion
		Eve contact

Acute toxicity

Acute inhalation toxicity

Not classified based on available information.

Product:

Acute oral toxicity	: LD50 (Rat): > 5.000 mg/kg Remarks: Based on data from similar materia	als
Acute dermal toxicity	: LD50 (Rat): > 5.000 mg/kg Remarks: Based on data from similar materia	als
Components:		
Imidacloprid:		
Acute oral toxicity	: LD50 (Mouse, male): 131 mg/kg Method: OECD Test Guideline 401	

Test atmosphere: dust/mist

: LC50 (Rat): > 5,323 mg/l Exposure time: 4 h

SECTIO	N 13: Disposal cons	derations					
13.1 Was	e treatment methods						
Produ	ıct	 It is best to use all of the product in accordance with label directions. If it is necessary to dispose of unused product, please follow container label instructions and applicable local guidelines. According to the European Waste Catalogue, Waste Codes are not product specific, but application specific. Waste codes should be assigned by the user, preferably in discussion with the waste disposal authorities. Do not dispose of waste into sewer. 					
Conta	aminated packaging	 Follow advice on product label and/or leaflet. Empty containers retain residue and can be dangerous. Do not re-use empty containers.
